W070 - International Symposium on
Facilities Management and Asset Maintenance
15th - 17th November 2000 Brisbane, Australia

Key Sponsors

Theme
The Symposium Theme is 'Providing Facilities Solutions to Business Challenges - Moving Towards Integrated Resource Management'.

Objectives
The Symposium will bring together the body of knowledge and expertise on Facilities Management and Asset Maintenance. It aims to forge close links between the financial, sociological and operational aspects of Built Asset Management. The Symposium will serve as a platform for reviewing the multifaceted and multidisciplinary interests and expertise that combine to realise a quality working and living built environment.

Topics
The Symposium will address all topics relevant to the theme and objectives. Papers are particularly invited on the topics covered by the W070 task groups. The groups focus on:

- Facilities Management and Strategic Facilities Planning
- Strategic Asset Management, Property Management and Maintenance Systems
- Condition Assessment and Prioritisation of Maintenance Actions
- Building Conservation and Refurbishment
- Technology of Maintenance

A special section of the Symposium will be devoted to developments of asset management and facilities management in the public sector.

Call for Papers
Papers are invited on the Symposium Topics. Papers submitted will be reviewed by the W070 Scientific Committee.

If you intend to submit a paper please notify the Symposium Secretariat without delay. For address see below.
