Two CIB Board Members Withdraw

Professor Wayne Drummond

Professor Wayne Drummond has relinquished his membership of the CIB Board. This is a formal consequence of his changing his function since the CIB Constitution stipulates that if a Board member no longer represents the CIB member organisation which he or she represented when elected, membership of the CIB Board automatically ceases.

Fortunately Wayne's expertise and counsels will not be permanently lost to CIB.

In congratulating him on his new appointment as Dean of the College of Architecture at the University of Nebraska, USA we are pleased to report that steps are underway for an eventual application for CIB membership from his new Organisation.

Professor Karl Gertis

A second Board Member has also been lost. This is Professor Karl Gertis, Head of Department at the University of Stuttgart, Germany and Director of the Fraunhofer Institute for Building Physics. CIB Commissions have derived great benefit from his scientific excellence over many years and will continue to do so.

However Professor Gertis concedes that his professional tasks simply do not leave him sufficient time to discharge his function as a Board Member in as meaningful way as he would wish and so he has tendered his resignation.
