As mentioned in the previous issue of CIB Information, the CIB World Congress 2004 organized under the direction of the CIB President, Dr. Sherif Barakat of the National Research Council’s Institute for Research in Construction will be held in conjunction with:

- The 6th International Conference on Multipurpose Highrise Towers and Tall Buildings
- The 5th International Conference on Indoor Air Quality, Ventilation and Energy Conservation in Buildings

Below is a provisional indication of the main themes for each of the three conferences that are part of the 2004 CIB World Building Congress.

Springtime at Harbourfront in Toronto, Canada

After a long, dormant winter, the City of Toronto comes alive in the Spring with activities that highlight its environmental beauty, cultural richness and metropolitan flair. At the centre of it all is the Harbourfront, set on the natural splendour of Lake Ontario.

The Harbourfront area is the cultural epicentre of Toronto. While just a mile away from the downtown core, where shops and boutiques abound in the bustle of Canada’s largest urban centre, the Harbourfront features dozens of attractions, museums, galleries and theatres within a half mile radius, including the Royal Alexandria Theatre, the National Ballet of Canada, the CN Tower and Skydome, home of the Toronto Blue Jays.

Please see [http://www.CIB2004.CA/toronto.html](http://www.CIB2004.CA/toronto.html) where by a simple click you can find further details on the above Harbourfront features, as well as for the below other “must-sees” and useful links.

Other "must-sees" in the area include:
- Niagara Falls - See one of the truly great natural sites of Canada
- Ontario Place - a waterfront playground/entertainment complex
- Queen’s Quay - with its access to the Toronto Islands
- Harbourfront Centre - Canada’s foremost centre for contemporary culture.
