

INTERNATIONAL COUNCIL FOR RESEARCH AND INNOVATION IN BUILDING AND CONSTRUCTION

INFORMATION

June 2005

Forthcoming Meeting

W082 – Future Studies in Construction

CIB W082 Commission Meeting

16 June 2005, Finlandia Hall, Helsinki, Finland

Introduction

All CIB members, all CIB 2005 Helsinki Symposium participants and all those interested in the 'Future Studies in Construction' issues are invited to join the Working Commission meeting during the 'Combining Forces' Conference.

Objectives

The CIB W082 Future Studies in Construction aims at

- to collect, create, discuss, evaluate and disseminate the knowledge dealing with the development and the medium and long term future of building and construction
- to analyse and interpret the external factors (e.g. technological, economic, environmental, social, global)
- to apply, develop and analyse methodologies of future studies and forecasting in construction and built environments (scenarios, trend analyses, weak signals, roadmaps, cross impact analyses, expert interviews etc.)
- to produce, formulate and evaluate the future alternatives of construction and its related sectors (e.g. construction industry, real estate cluster, housing, human settlements, cities and neighbourhoods).

Venue

Date : Thursday 16th June 2005
Time : at 10:30-12:00

Location : CIB 2005 Helsinki Symposium, Finlandia Hall, Room 31.

Main Topic for Discussion

Overview of the past activities

- Sustainable Development and the Future of Construction (1995-1998). CIB Report 225.
- Construction and City Related Sustainability Indicators (2000-2003). EC funded Thematic Network, see crisp.cstb.fr

New Projects

- Bridging Sustainability with ICT
- Other topics
