## ICCREM 2005: International Conference on Construction and Real Estate Management: "The Challenge of Innovation"

Last announcement

12<sup>th</sup> - 13<sup>th</sup> December 2005, Penang, Malaysia

### About the Conference

This International Conference on Construction and Real Estate Management, known as ICCREM 2005 is jointly organized by University Sains Malaysia, Harbin Institute of Technology, The Hong Kong Polytechnic University, National University of Singapore, Purdue University, and University of Salford.

Over 100 papers have been submitted for review, addressing diverse issues pertaining to the challenge of innovation in construction and real estate. Keynotes speeches will be provided by prominent figures from construction and real estate industries. The Minister of Housing and Local Government in Malaysia will officiate this conference.

### Aims and Objectives

The conference aims to create a forum of exchange for researchers, educators and practitioners representing educational institutions, government agencies, contracting organizations, engineering consulting companies, financial institutions and other relevant organizations from all over the world.

### Scope & Main Topics

The conference will cover a wide range of topics. Papers submitted cover the following topics, related to research, practice and teaching:

- Construction and Project Management
- Construction Economics
- Value Management
- Risk Management
- Supply Chain Management
- Partnering in Construction
- Strategic Management
- Communication Management
- Information Technology and Systems
- Knowledge Management
- Real Estate Management and Services
- Real Estate Industry Analysis Studies
- Real Estate Development and Finance
- Real Estate Laws and Policies.

### Who Should Attend

Those who are keen to explore the latest research in the field, including

- Project Managers
- Architects, Engineers
- Quantity Surveyors
- Building Services Engineers
- Academics, Researchers, and Students

- Property Developers and Consultants
- Contractors

### **Why You Should Attend**

- Meeting platform for professionals around the world
- Discover industry trends and key business drivers
- Exchange ideas and knowledge on critical issues to the industry
- Discover latest development and technology in IT solutions
- Plan your business strategies while learning your clients, contractors or suppliers
- Learn and exchange ideas on methods to add value to capital projects
- Foster valuable network connections
- Meet prospective business associates

### **Conference Publications**

Papers will only be published if full registration fee for at least one author is received.

All accepted papers will be published in the conference proceedings and selected papers will be published in Harbin Institute of Technology Journal (English Version) or Journal of Automation in Construction, Building Research and Information. The HIT Journal is a core journal of China Science & Technology and a source of "Engineering Index" EI COMPENDEX. Automation in Construction and Building Research and Information are included in the Science Citation Index.
