18-20 September 2006, Taipei

Invitation

CIB Working Commission W062 organizes its 32nd annual symposium in Taipei together with NTUST (National Taiwan University of Science and Technology). On behalf of CIB W062, the Organizing Committee is pleased to invite you to participate in this CIB W062 2006 32nd International Symposium on Water Supply and Drainage for Buildings, to be held on September 18-20, 2006, in Taipei, Taiwan.

The symposium is open to all those experts, researchers, practitioners, regulators and industry delegates from all over the world, with an interest in the developments in the field of water supply and drainage for buildings.

Symposium Objectives

The aim of this symposium is to provide a forum where participants will be informed and exchange:

- experiences on recent developments in water supply and drainage for building

- information on the characteristics and performances of systems and data for their design
- on the implementation of codes and standards
- on future research coordination

Topics

Within the general area of concern, the topics in which papers are encouraged should preferably include the following:

- management and maintenance of water systems, commissioning, non destructive techniques, water conditioning
- environmental considerations: green buildings, sustainable construction, water conservation, rainwater and waste water reuse, small waste water treatment, green roofs, solar water heating
- hydraulics of water systems in and around buildings
- health aspects related to water systems: Legionella, SARS, infection prevention, consequences of natural disasters, flooding, earthquakes, terrorism,
- plumbing technology
- standardisation and certification of materials, systems, drinking water regulations

- new materials and products, solutions for renovation of piping system, corrosion and durability of materials, with special attention for historic buildings
- software for design
