International Council for Research and Innovation in Building and Construction

Providing a global network for international exchange and cooperation in research and innovation in building and construction, in support of an improved building process and of improved performance of the built environment.

March 2006

Forthcoming Meeting

Introduction

Message from the Organizing Committee Chairman
Education and Research are the two most important factors affecting the speed of advancement for the building and construction industry. The Committee Chairman welcomes you to attend the next Building Education and Research (BEAR) Conference to be held on 10-13 April 2006 in Hong Kong.

The Conference provides a good opportunity for those Building and Construction practitioners to share their practical experiences and successful stories with peers, particularly in the areas of sustainability and innovation; for academics and researchers to

disseminate their latest research findings; and for government officials as well as policy-makers to share with the conference participants about their building and construction related policies and approaches.

Conference Information

The official language is English.

Registration Fee	
Normal Registration	HK\$ 4,290/US\$ 550
Student	HK\$ 3,860/US\$ 495
