Proceedings of the 3rd International SCRI Symposium, April 2006

ISBN Number 0 902896 95 4

Editors
G. Aouad, M. Kagioglou, K. Harris, H. de Ridder, R. Vrijhoef and C. van den Broek

Summary

These are the Proceedings of the CIB co-sponsored International Salford Centre for Research and Innovation (SCRI) Research Symposium, which is part of the 3rd International Built and Human Environment Research Week hosted by the University of Salford, Delft University of Technology and TNO in Delft, The Netherlands.

The Symposium provided a forum for academic and industrial communities worldwide to present state of the art research and practice based innovations in the built and human environment. All of the papers have been selected on the basis of strict review by the Scientific Committee members to ensure a high standard. These papers cover a wide spectrum of topics that are broadly grouped into nine themes:

- Theory Development in Construction
- Innovation and Value in Construction
- International Perspectives
- ICT for Urban Planning and Sustainability
- IT Technologies for Construction
- Competitiveness
- Facilities Management
- Procurement and Supply Chain
- Education and Professional Development

Format

A5, illustrated, pages 626. Also available as CD-Rom.
