Proceedings of the 4th International Built and Human Environment Research Week

These are the Proceedings of the CIB Co-sponsored International Built and Human Environment Research Week, 26-30 March 2007. This conference was co-organised by the Research Institute for the Built and Human Environment at the University of Salford, UK.

The conference included:

- Fourth International Salford Centre for Research and Innovation (SCRI) Research Symposium
- Seventh International Postgraduate Research Conference in the Built and Human Environment
- SCRI / HaCIRIC Industry Day: (How Can We Do Things Better in Health and Care Infrastructures Centre)

The Research Symposium and Postgraduate Research Conference are described separately hereafter.

4th SCRI International Research Symposium

Editors: Carl Abbott, Ghassan Aouad, Mike Kagioglou and Les Ruddock

The Symposium provides a forum for academic and industrial communities worldwide to present state of the art research and practice based innovations in the built and human environment. All of the papers have been selected on the basis of a strict review by the scientific committee to ensure a high standard. The papers cover a wide spectrum of topics that we have broadly grouped into the following themes:

- Partnering, Supply Chain & Procurement
- IT and Design
- Production
- Industry and Work
- Healthcare and Facilities Management

- International Perspectives and Sustainability
- Healthcare in the Built Environment
- Education and Production
- IT, Design and Clients

7th International Postgraduate Research Conference

Editors: Dr Dilanthi Amaratunga, Dr Richard Haigh, Prof. Les Ruddock and Prof. Mustafa Alshawi

All of the papers have been selected on the basis of a rigorous review by the Scientific Committee members to ensure the quality of those papers selected for publication. The selected papers cover a wide spectrum of topics that can be broadly placed into eight themes.

- Procurement
- Management Economics
- Visualisation and Communication
- Disaster Management
- Training and Development
- Sustainability
- Design
- Research methodology

Format

These proceedings are available on CD-ROM together with the Proceedings of the other two events, which were part of the International Built and Human Environment Research Week, 26-30 March 2007.
