CLIMA2007 WellBeing Indoors

ISBN 978-952-99898-2-9

Editors: Olli Seppänen and Jorma Säteri

Summary

Proceedings of CLIMA2007 WellBeing Indoors held in Helsinki, Finland, 10–14 June 2007. The 9th Congress in Helsinki held in Finland June 2007 focused particularly on how to design, build and maintain healthy and productive indoor environment with low use of energy. The title of the congress “WellBeing indoors” reflects this goal.

The invited key-note lectures and the one-page summaries of the over 460 papers presented in the CLIMA2007 congress are published in the Abstract book. The full papers are published in the Proceedings CD, organized in 30 sessions under the following themes:

- Healthy and productive indoor environment
- Sustainable energy use of buildings
- Intelligent design and management of buildings
- Energy efficient heating and cooling systems

The main objective of the congress was to share the knowledge between scientists, practitioners and manufactures. A significant outcome of the congress are the reports from the 20 workshops organised during the congress. The results of the workshops will be available at REHVA website (www.rehva.eu).

Order from

The proceedings are available as a hard copy and as a CD-ROM for € 30 (excl. post and packing)
