

## CIB NEWS ARTICLE

International Council for Research and Innovation  
in Building and Construction

Providing a global network for international exchange and cooperation in research and innovation in building and construction, in support of an improved building process and of improved performance of the built environment.

December 2007

### Introduction New CIB Encouraged Journal

**Kurzberichte aus der Bauforschung**

**Building Research Summaries**

**Recherche du Bâtiment – Comptes Rendu**

Recently CIB granted the status of CIB Encouraged Journal to *Kurzberichte aus der Bauforschung / Building Research Summaries / Recherche du Bâtiment – Comptes rendu*, published by Fraunhofer-Informationszentrum Raum und Bau IRB.

#### Scope

“Building Research Summaries” is the main specialist journal for building research in Germany. Summaries of ongoing and completed research work, written by the researchers and authorized by the research promoter offer building researchers an overview of publicly funded building research. It provides surveyors, authorized experts and other building practitioners with information on latest research results relevant for their daily work. English and French translations of German language texts are included whenever authorized versions from the researchers are available.

The journal also includes portraits of research institutes and promoters, as well as notes and press releases on research results from Germany, Austria, UK, France and other countries. A special CIB news

section features forthcoming meetings and recent CIB Publications.

#### Main Content Partners

- German Federal Ministry of Transport, Building and Urban Affairs (BMVBS)
- German Federal Office for Building and Regional Planning (BBR)
- German Federal Ministry for Economic Affairs, Austria (BMWA)
- German Institute for Construction Technology (DIBT)
- German Society for Wood Research e.V. (DGfH)
- German Board for Reinforced Concrete (DAfStb)
- CIB International Council for Research and Innovation in Building and Construction
- Centre Scientifique et Technique du Bâtiment (CSTB), France
- Building Research Establishment (BRE), UK
