International Council for Research and Innovation
in Building and Construction

Providing a global network for international exchange and cooperation in research and innovation in building and construction, in support of an improved building process and of improved performance of the built environment.

February 2008

New CIB Publication

Proceedings of SB07 Auckland "Transforming our Built Environment", Auckland, New Zealand, November 2007

These are the Proceedings of the CIB Co-sponsored Conference SB07 Auckland "Transforming our Built Environment", Auckland, New Zealand, 14-16 November 2007. The Conference brought together a wide range of industry stakeholders to focus on the issue of Sustainable Building in the New Zealand environment.

Conference Themes

The conference covered several themes:

- The case for sustainable building
- How policy and policy tools can influence sustainable building
- Sustainable neighbourhoods and developments - case studies
- LCA: Its roles and application
- Sustainability assessment tools
- Sustainable commercial buildings

- Sustainable residential buildings
- Resource efficiency
- Sustainable design - information and tools
- Materials and products for sustainable building
- Dealing with existing buildings

Format and Price

The proceedings are available as a CD-ROM. To find out about the price and how to order the proceedings please contact:
