W108 - Climate Change and the Built Environment

Meeting Report of the 7th Meeting of CIB W108

Editor: Jean-Luc Salagnac

Summary

This is the Meeting Report of the 7th W108 Meeting, held on 12 and 13 June 2008 at the Centre Scientifique et Technique du Bâtiment (CSTB), Nantes, France.

The publication consists of two parts: 1) Minutes of the Meeting; and 2) Presentations given at the Meeting.

Adaptation policies were presented of the following countries: Spain, Ireland, France and the United Kingdom.

Technical presentations included in the report address the following topics:

- Climate change and the built environment: where do we stand?
- Designing with weather

- Climate change issues & Ecofys
- Impact of Climate Change on Urban Environment
- Sustainable Cities: Options for responding to climate change impacts and outcomes
- Mitigation of urban heat islands: urban planning, vegetation and materials
- The Use of Green Roofs in Mitigating Urban Climate Change
- Impact of Climate Change on Buildings - Functional analysis of building
- Natural risk insurance under climate change: Why insurers are interested in assessing future urban extension in hazard prone area
