As part of the CIB World Congress 2010, which will be held from May 10th - 13th 2010, The Lowry, Salford Quays, United Kingdom, there will be a Special Track on "Advancements in Performance Measurement in Construction" as part of the activities of CIB W117.

Papers are invited for a special track on "Advancements in performance measurement in construction" at the CIB World Congress 2010. The primary focus of this track is to present research and practice, theories, and findings in the area.

Topics

We are interested in papers covering a range of themes, including, but not restricted to:

- Optimal uses of performance information in the construction and the wider built environment
- Knowledge of proven methods for implementing and sustaining performance metrics in projects, organizations and industry
- Performance measurement tools, techniques, metrics and methodologies
- Advancement of Performance Information and Value
- Improvements in understanding and awareness of Benchmarking of Construction Performance Data.
- Key Performance Indicators
- Contribution of Performance Measurement to stakeholders
- Challenges associated with Performance Measurement in Construction
- Identification, capture, use, and classification of performance information in the delivery and maintenance of facilities.

Abstract submission

The deadline for abstract submission is 16th March 2009. All the abstracts for the CIB2010 congress are to be submitted online. Visit the "abstract submission" page in the congress website: www.cib2010.org for information about the process.

If you need further assistance with this process, please contact Kaushal Keraminiyage on Kaushal@cib2010.org for details.

Note: If you are a postgraduate researcher planning to attend and present your paper at the World congress 2010, in order for you to be eligible for special student rate and to benefit from a wide range of postgraduate research related world congress activities, please indicate that in the abstract submission form by answering the relevant question(s).

Additional Information

For any other kind of enquiry about track please contact:
