International Council for Research and Innovation
in Building and Construction

Providing a global network for international exchange and cooperation in research and innovation in building and construction, in support of an improved building process and of improved performance of the built environment.

March 2009

Forthcoming Meeting

Special Track CIB World Building Congress for W112 - Culture in Construction

Introduction

Next year, CIB has again its tri-annual World Building Congress, which takes place in Salford in the United Kingdom. The theme is 'Building a Better world...'. That is a perfect theme in two days turmoil of economies on a worldwide scale. The construction sector is on one hand strongly hit by these economic adjustments, but on the other hand it plays an important role in restructuring economies not only on a local scale but also on regional, national and international scale, with all its multi-cultural influences.

CIB Working Commission W112 'Culture in Construction' is using this opportunity to organize a specific session during this congress. The theme will be: 'Culture's Role in Construction Innovation'.

Notification:

Deadline for submission of abstracts
18th of May 2009

Notification of acceptance of abstracts
22nd of June 2009

Please submit via the conference-website:

www.cibworld.nl

We, therefore, kindly invite you all to show your interest for this session, and look forward to meet you all again next year!

Of course, this session will also be open to all congress delegates; moreover, it will be an excellent opportunity to join our interesting and active working commission as a new member...!
