International Council for Research and Innovation  
in Building and Construction

Providing a global network for international exchange and cooperation in research and innovation in building and construction, in support of an improved building process and of improved performance of the built environment.

May 2009

**Forthcoming Meeting / CIB Co-sponsored Event**

## **2009 26th International Symposium on Automation and Robotics in Construction (ISARC)**

**Austin, Texas, U.S. - June 24-27, 2009**

### **Introduction**

The University of Texas at Austin has been selected as the location for the 2009 26th International Symposium on Automation and Robotics in Construction (ISARC 2009), which will take place in Austin, Texas, United States on 24-27 June 2009. The symposium is a gathering of researchers, academics and practitioners interested in the use of automation and robotic technologies for planning, managing and executing construction projects.

Of special interest, the Symposium will be co-located with the 2009 ASCE International Workshop on Computing in Civil Engineering. Attendees of the Symposium will have complementary registration to the ASCE event. Plenary sessions will be shared between the Workshop and Symposium. Attendees will be able to attend all sessions. We look forward to cross fertilization between these two communities.

### **Theme and Topics**

The conference themes and topics are:

- Management & Social Issues
- Information & Computational Technology
- Robot Technology
- Automation & Robot Applications
- Automated Data Acquisition & Monitoring

### **Conference Venue**

The AT&T Executive Education and Conference Center at the University of Texas at Austin opens on August 2008. Second to none among Austin hotels in advanced technology and sophisticated hospitality,

guests will enjoy inspiring views of the University of Texas at Austin Tower and the State Capitol, or our serene central courtyard. Fine dining experiences will delight you with a wide range of food and beverage selections. Energy-conscious guest rooms with superior connectivity and comfort provide some of the finest accommodations found among Austin hotels. All the essentials for exceptional educational events truly meet at Texas. Multiple functionalities and advanced technological features combine in a sophisticated learning environment capable of fulfilling the most complex education and conference planning needs.

### **Symposium Registration**

The registration website is now open.  
Regular rate after April 6:     \$625  
Student rate:                     \$350
