2009 Conference on Green Building • Towards Eco-City

October 11-14, 2009
Taipei, Taiwan

Introduction

The 2009 Conference on Green Building Towards Eco-City will take place on October 11 to 14, 2009 in Taipei, Taiwan.

Taiwan, following the global pulse in pursuing a sustainable living environment, has been striving to establish a comprehensive green building promotion mechanism for the subtropical region for more than a decade. Today, in order to respond to the greater challenge of global environmental change that lies ahead, we are calling for cross-disciplinary solutions, successful practices, community actions, joint efforts, and creative ideas to elicit innovative green building schemes and to enrich the way connecting green building initiatives to eco-city development. We hope that through the knowledge-transfer platform of the

conference and the contributions provided by all the stakeholders we may have better insights into the changing world and adopt concrete actions to protect the planet in which we are dwelling.

Paper Topics

Papers covering current research, design innovation, product applications and solutions, as well as case studies and critical evaluations are invited within the following topics :

- Green Building Policy and Initiative
- Energy Saving
- Water Resources and Ecological Environment
- Waste Reduction
- Indoor Environment Quality
- Evaluation System and Tools

- Eco-technology and Program Planning Theories
- Educational Training and Strategies
- Sustainable Urban Renewal and Planning
- Eco-city Related Issues

Calendar

Deadline for final papers to ensure inclusion in the proceedings **July 31, 2009**
 Conference on Green Building
 Towards Eco-City **October 11-14, 2009**

Conference Venue

The conference will be held at the Center of National University of Science and Technology
