Proceedings of the International Conference on Global Innovation in Construction, September 2009, Loughborough, United Kingdom

Proceedings of the International Conference on Global Innovation in Construction held on 13-16 September 2009 in Loughborough, UK. The conference has accepted 63 papers from researchers from 18 countries around the world. This demonstrated the global nature of our research community. This document recorded the academic papers.

In addition there was an industry day with presentations from: The European Construction Institute, The Innovative Manufacturing and Construction Research Centre (IMCRC), The Centre for Innovative and Collaborative Construction Engineering (CICE), EPSRC, PSI Bouw demonstrated how the academic community and our industrial partners supported each other.

The papers were structured into 7 themes. These are:

- Innovation through Procurement
- The Economic, Social and Environmental Effects of Innovation
- Knowledge Transfer
- Strategies for Innovation
- Measurement of Innovation Performance

- Creating the Climate for Innovation
- New Modes for Innovation.

In addition to the papers presented in the workshops, the papers selected for presentation at the plenary session include:

- The Education of Innovative Engineers
- A Balanced Knowledge Management Initiative
- Innovation from Strategic Collaboration
- Innovation: Is it all in the Mind?
