New CIB Publication

W078 - Information Technology for Construction

Managing IT in Construction / Managing Construction for Tomorrow

Editors: Mr. A. Dikbas and Prof. Dr. F.H. Giritli

The Joint Conferences presented new developments in:
- Managing IT strategies
- Model based management tools including building information modeling
- Information and knowledge management
- Communication and collaboration
- Data acquisition and storage
- Visualization and simulation
- Architectural design and sustainability
- Innovative approaches and best practices in international construction
- Health and safety
- Sustainability and competitiveness

Managing IT in Construction / Managing Construction for Tomorrow brought together academics, researchers, developers and end-users involved in construction management and IT in construction.
