Lean Design Management Architectural Engineering and Design Management (AEDM)

Editor Professor Dino Bouchlaghem, Loughborough University, UK.

About AEDM

Recently awarded an A*, the highest ranking possible in the Australian Research Council's 2010 journal survey, Architectural Engineering and Design Management is influential and far-reaching and provides a unique forum for the dissemination of academic and practical developments related to architectural engineering and building design management. This international, peer-reviewed journal details the latest cutting-edge research and innovation within the field, spearheading improved efficiency in the construction industry.

Special Issue guest editor: Professor Stephen Emmitt,
Loughborough University, UK.

Call for Papers

Building on the special editions Aspects of Design Management, (Volume 3 number 1, 2007) and Design Management for Sustainability, (Volume 5, numbers 1 and 2, 2009) this publication aims to bring together the rapidly evolving field of design management with that of lean construction. The theoretical aspects and application of lean design management have, to date, rarely featured in peer reviewed journals, furthermore the fields of design management and lean construction appear to be developing independently. The point of departure for this special edition is that lean thinking should be integral to design management in the fields of architecture, engineering and construction (AEC). The purpose of this special edition is to assemble a variety of viewpoints from around the globe on the application of lean design management. Papers reporting recently completed research and experiences from practice are particularly welcome as are theoretical articles.

The special edition will be published in 2011. To ensure the publication schedule is met, full papers will be required before the deadline of 1st October 2010.

Expressions of interest and synopses of papers explaining the nature of the contribution should be sent to the guest editor, Professor Stephen Emmitt, at s.emmitt@lboro.ac.uk before the deadline of 30 June 2010.
