Sustainable Construction

Request for Expressions of Interest to hold Conferences on Sustainable Building in 2013 and 2014

CIB, iisBE and UNEP request non-binding Expressions of Interest (EOIs) for the holding of a series of national conferences on sustainable building and construction during 2013 (“SB13 National Conferences”), and for a single global SB conference (“the SB14 World Sustainable Building Conference”) to be held in 2014.

Response Method

Your EOI can consist of a short covering e-mail and a completed version of the attached form. If your EOI is selected, you will be provided with a guideline to prepare a detailed proposal for either a national event in 2013 or the global event in 2014.

Deadline

The deadline for submitting a non-binding EOI is 16 February, 2011. Selected proponents will be informed before the end of February, and the detailed proposal will be due by the end of June 2011. The selected proposals will be announced at the Helsinki SB11 World Sustainable Building Conference during 18-21 October, 2011.

Review and Selection

EOIs for national SBC conferences in 2013 will be reviewed and selected on the following basis:

- Good geographic dispersion (we hope to have a wide representation of countries and continents, and to avoid a concentration of several events in one region).

EOIs for the Global event in 2014 will be reviewed and selected on a similar basis, except that the geographic location preferred will be a country other than locations used for this event during the last decade, e.g. not in Netherlands, Norway, Japan, Australia or Finland.

Submission of EOI’s

EOI’s should be submitted to Dr. Bill Porteous at bill.porteous@cibworld.nl, who represents the three international co-sponsors in this process.

Additional Information

Information on the SB10/11 Conference Series can be found in the CIB SB Conference Portal here.
