April 2011

Forthcoming Meeting

W107 - Construction in Developing Countries

International Conference on Innovation and Sustainable Construction in Developing Countries

1-3 November 2011, Hanoi, Vietnam

Introduction

The primary aim of the Conference is to provide an opportunity for researchers, academics, professionals and government officials to exchange ideas on how the construction industry, through innovation and sustainable practices, can enhance economic growth in developing countries.

The Conference will bring together an international audience of researchers in engineering, architecture and building construction, managers of construction projects, owners of construction, persons interested in building construction education and its impact on research, producers of construction software and government agencies.

It is expected that there will be about 200 delegates from different countries taking part in three and half days of presentations, workshops and debates on how the construction industry can facilitate economic development in developing countries.

Conference Theme

The International Conference theme is "Innovation and Sustainable Construction".

The sub themes are:
- innovation in construction
- sustainable construction practices and cost effectiveness
- construction workforce and productivity
- building information modeling (BIM)
- innovative project delivery system
- construction safety management and quality

project management and quality construction
construction industry development entities within developing countries.

Important Dates

The important dates are:
- Acceptance of papers 15 May 2011
- Submission of final papers (camera ready) 15 July 2011

Venue and Location

The Conference will be held at Hotel Daewoo Hanoi
60 Kim Ma Street, Ba Dinh District, Hanoi, Vietnam,
Tel: (+84.4) 3831 5000, Fax: (+84.4) 3831 5010
