The rules of the Award require proposers to have collaborated with a CIB Commission in drafting their proposals so that the result of the proposed work will be of value to that Commission. The winning proposal

in 2011 was developed in conjunction with CIB W119 Customised Industrial Construction. Details [here](#).

International Research Collaboration Meeting

This meeting was hosted by the CIB Student Chapter in the School of Built and Human Environment at the University of Salford, United Kingdom.

The meeting provided an opportunity for CIB Student Chapter members from all over the world to hear about each other's research interests and to explore possibilities for research collaboration in the future.

CIB Student Chapter Committee

The Student Chapter Committee, established by the Board in 2010, held a webex meeting in September 2011 at which it discussed the development of new Student Chapters, the outcome of the revised CIB Sebestyén Future Leaders Award and steps being taken to establish active Regional Contact Persons to support Student Chapters.
