The Department of Construction Engineering of the Escola Politécnica, University of São Paulo is pleased to invite you to participate in this CIB W062 40th International Symposium on Water Supply and Drainage for Buildings to be held on 8-10 September, 2014 in São Paulo, Brazil.

The symposium is open to all experts, researchers, practitioners, regulators and industry from all over the world, with an interest in the developments in the field of water supply and drainage for buildings.

The two days of technical sessions offer a highly rewarding opportunity for learning and networking with other professionals. International Symposium of CIB W062 strongly encouraged and welcome participation of delegates from Europe, America, Africa, Asia and Oceania.

**Symposium objectives**

The aim of the symposium is to provide a forum where participants will exchange information on:

- results of recent researches;
- industrial researches and developments;
- performances of building systems;
- models and procedures for design;
- codes of practice and standards.

**Topics**

Within the general area of concern – cold water, hot water, drainage and storm water, the topics in which papers are encouraged should preferably include the following:

- modelling of water supply and drainage for buildings;
- management and maintenance of water supply and drainage systems;
- plumbing commissioning;
- health and hygiene aspects related to plumbing systems;
- sustainable construction and water conservation;
- performance of materials, components and systems.
