

## **W62 - Water Supply and Drainage for Buildings**

**'97 CIB-W62 Symposium**

# **Water Supply and Drainage for Buildings**

**10 - 12 November 1997 Yokohama, Japan**

### **Host Organisation**

CIB-W62-1997 International Symposium Organising Committee

### **Co-Sponsors**

SHASE (The Society of Heating, Air-Conditioning and Sanitary Engineers of Japan)

JSPE (Japan Society of Plumbing Engineers)

### **Supporting Organisations**

BRI (Building Research Institute, Ministry of Construction)

CIB Relational Committee (JAPAN)

### **Invitation**

This Symposium is open to all. If you would like to attend, please fill in the official Reply Form and

mail it to the Symposium Secretariat without delay (see Contact Address).

If you are proposing to give a paper, please give the title and abstract of your paper in English on the Reply Form. Please note that, if the number of proposed papers exceeds our capacity, some applicants may be asked to give a poster session instead.

Even if you do not intend to present a paper, our two days of technical sessions, plus reception dinner, offer a highly rewarding opportunity for learning and networking with other professionals.

The Organisers of the CIB W62 1997 International Symposium strongly encourage and welcome participation by delegates from Europe, America, Asia and other countries.

A full information pack will be sent to you as soon as we receive your application.

Prof. Fumitoshi Kiya, Chairman, Organising Committee  
Prof. Motoyasu Kamata, Chairman, Executive Committee

## **Themes**

The Symposium will include papers on the following Themes:

- Design methods for cold and hot water supply and drainage system in buildings
- Water quality and treatment systems
- Water recycling systems, Water Economy
- Rain-water systems
- Garbage disposal and composting systems
- Plumbing materials
- Performance evaluation methods for plumbing systems and components
- Renewal of plumbing systems
- Relevant legislation and standards
- Other themes

## **Call for Papers**

Papers are invited which describe original research results, applications, or case studies for oral presentation or poster sessions. Papers must be in English. The author must submit an abstract of not more than 300 words for consideration and possible acceptance by the Selection Committee without delay. Format specifications for the final full paper will be sent to authors of accepted abstracts.

## **Venue**

Yokohama, a port city situated roughly 30 km south-west of Tokyo, is the second largest city in Japan, supporting a population of over 3 million. The venue for CIB W62 1997 is the Yokohama Symposia in Yamashita-cho.
