TG21 - Climatic Data for Building Services

A report on the inaugural meeting of TG21 which was held on 7th and 8th April last year has been included in Issue 3/97.

At that meeting the suggestion was made to arrange the next meeting in conjunction with the CIB World Congress and so TG21 joins the impressive list of Groups that will meet in Gävle.

It will be on 5th and 6th June 1998 and Dr. Kamal Handa from the Chalmers University of Technology will be in charge.

A call for Abstracts and more about this meeting appears in the section Forthcoming Meetings.

RILEM TC EDM/CIB TG22

Environmental Design Methods in Materials and Structural Engineering

This Joint RILEM/CIB Group will meet on Friday 12th June 1998 in Gävle from 15.30 - 19.00 hours.

The Provisional Agenda will be:

1. Minutes of the Meeting in Paris in June 1997
2. Introducing the first draft of "Guide for Integrated Life Cycle Design of Materials and Structures"
   1. General Introduction: Chairman, Dr. Asko Sarja
   2. Presentation of Separate Reports: Dr. Fukushima, Dr. Ito, Mr. Kümmel, Mr. Lepoivre, Mr. Müller, Prof. Ödeen
3. Future Activities
5. Cooperative Subjects with other RILEM Environmental TCs: TC EID, TC ECB and TC SRM. Discussion with representatives of these TCs
