APPLIED ACOUSTICS

(ISSN 0003-682X)

Volume 54 Number 4 August 1998

H.A. Hamadah & H.M. Hamouda (Kuwait)

Assessment of Speech Intelligibility in Large Auditoria Case Study: Kuwait State Mosque.

C.C. Cheng & J.K. Wang (Taiwan)

Structural Acoustic Response Reduction of a Fluid-loaded Beam Using Unequally-spaced Concentrated Masses.

C. Cianfrini et al. (Italy)

A Method for Predicting Non-uniform Steady Sound Fields Within Spaces Bounded by Diffusive Surface.

S.Asghar, et al. (Pakistan)

Scattering of a Spherical Gaussian Pulse Near an Absorbing Half Plane.

Annual Institutional Subscription Rates 1998

Europe, CIS, Japan: NGL 2073. All other countries: US \$ 1192. NGL prices exclude VAT. Prices include postage and insurance and are subject to change without notice.

CONSTRUCTION MANAGEMENT AND ECONOMICS

(ISSN 0144-6193)

Volume 16 Number 3 May 1998

Ching-Hwang Wang, et al.

Hierarchical indices for measuring the effectiveness of construction automation implementation.

Jensen, Jr., D.A. and Craig Jr., J.W.

Testing the validity of liquidated damages clauses: measuring the application preference and consistency of the intent test as applied by the United States court system.

Yogeswaran, K., et al.

Claims for extensions of time in civil engineering projects.

Raftery, J.

From Ptolemy to Heisenberg: quantitative models reality.

Jensen Jr., D.A. and Craig Jr., J.W.

The impact of TAMRA '88 on US construction accounting practices.

Egbu, C.O., et al.

Planning and control processes and techniques for refurbishment management.

Bordoli, D.W. and Baldwin, A.N.

A methodology for assessing construction project delays.

Atkinson, A.

Human error in the management of building projects.

Agapiou, A., et al.

The changing role of builders merchants in the construction supply chain.

Vidogah, W. And Ndekugri, I.

Improving the management of claims on construction contracts: consultant's perspective.

Subscription Details

The 1998 subscription rates for volume 16 (6 issues) are: (Print & Internet access) USA/Canada US \$ 790; Rest of the world £ 475. (Print only) USA/Canada US \$ 660;

Rest of the world £ 395. There are reduced rates of US \$ 220/£ 130 for members of CIB, CIOB, ARCOM, AUBEA and ASC. Student rates are: USA/Canada US \$ 66; Rest of the world £ 39.

Details of Internet access to this journal are available at:

AUTOMATION IN CONSTRUCTION

(ISSN 0926-5805)

Volume 7 number 2,3 January 1998

Special Issue: Models of Design

Part 1: Design process

P. Lloyd and P. Deasley, Ethnographic description of design networks.

R.C. Valkenburg, Shared understanding as a condition for team design.

Ö. Akin and C. Akin, On the process of creativity in puzzles, inventions, and design.

E. Frankenberger and P. Badke-Schaub, Modelling design processes in industry - empirical investigations of design work in practice.

M. Mazijoglou and S.A.R. Scrivener. The rich picture of design activity.

Part 2: Design support

Y.E. Kalay, L. et al. An integrated model to support distributed collaborative design of buildings.

A. Mahdavi and G. Suter. On the implications of design process views for the development of computational design support tools.

(ISSN 0378-7788)

Volume 27 Number 1 February 1998

T. Basaran, Z. Ilken. Thermal analysis of the heating system of the Small Bath in ancient Phaselis.

J. Córdoba, et al. Study of the potential savings on energy demand and HVAC energy consumption by using coated glazing for office buildings in Madrid.

G. Rodonò, R. Volpes. Heat transfer calculation in a free convention air solar collector.

E. Eumorfopoulou, D. Aravantinos. The contribution of a planted roof to the thermal protection of buildings in Greece.

G. Gan. A parametric study of Trombe walls for passive cooling of buildings.

E. Arens. et al. A study of occupant cooling by personally controlled air movement.

A.J. Arnfield, C.S.B. Grimmond. An urban canyon energy budget model and its application to urban storage heat flux modeling.

R. Meldem, F. Winkelmann. Comparison of DOE-2 with temperature measurements in the Pala test houses.

G.S. Brager, R.J. De Dear. Thermal adaptation in the environment: a literature review.

B.S. Kim, L.O. Degelman. An interface system for computerized energy analyses for building designers.

Volume 27 Number 2 April 1998

Energy conservation strategies for sports centers

E. Trianti-Stourna, et al. Part A. Sports halls

Energy conservation strategies for sports centers

E. Trianti-Stourna, et al. Part B. Swimming pools.

R.K. Calay, et al. Natural convective heat transfer rates in rectangular enclosures.

M. Bauer, J.-L. Scartezzini. A simplified correlation method accounting for heating and cooling loads in energy-efficient buildings.

C.O.R. Negrão. Integration of computational fluid dynamics with building thermal and mass flow simulation.

S.G. Hodder, et al. Thermal comfort in chilled ceiling and displacement ventilation environments: vertical radiant temperature asymmetry effects.

T. Muneer. Evaluation of the CIE overcast sky model against Japanese data.

E. Palomo Del Barrio. Analysis of the green roofs cooling potential in buildings.

R. Haas, et al. The impact of consumer behaviour on residential energy demand for space heating.

F.W.H. Yik, et al. Energy performance criteria in the Hong Kong Building Environmental Assessment Method.

Volume 27 Number 3 June 1998

Special Issue On Optimum Ventilation And Air Flow Control In Buildings

V. Kukadia, J. Palmer. The effect of external atmospheric pollution on indoor air quality: A pilot study.

M. Kolokotroni, et al. Summer cooling with night ventilation for office buildings in moderate climates.

D. Parent, et al. Optimum ventilation and air flow control in buildings.

V. Dorer, D. Breer. Residential mechanical ventilation systems: performance criteria and evaluations.

P. Wouters, et al. Ventilation requirements in non-domestic buildings and energy efficiency.

P.O. Veld, C. Passlack-Zwaans. IEA ANNEX 27: Evaluation and demonstration of domestic ventilation systems. Assessments on noise.

D. Ducarme, et al. Practical experiences with IR-controlled supply terminals in dwellings and offices.

F. Fluorentzou, et al. Natural ventilation for passive cooling: measurement of discharge coefficients.

I.S. Walker, et al. A comparison of the power law to quadratic formulations for air infiltration calculations.

J. Sowa. Comparison of methods of including stochastic factors into deterministic models of indoor air quality.
