ENERGY AND BUILDINGS

(ISSN 0378 - 7788)

Volume 29
Number 2
January 1999

R. Zmeureanu, et al.,
Development of an energy rating system for existing houses

U. Larsson, et al.,
Thermal analysis of super insulated windows (numerical and experimental investigations)

J.-M. Roucoult, et al.,
Incorporation of thermal inertia in the aim of installing a natural night-time ventilation system in buildings

G.C. Bakos, et al.,
Energy management method for fuel saving in central heating installations

V. Geros, et al.,
Experimental evaluation of night ventilation phenomena

A. Capuano, et al.,
A metrological analysis of a (Direct Digital Control) DDC-based air conditioning system

M. Hamdi, et al.,
A new predictive thermal sensation index of human response

J.F. San José-Alonso, et al.,
Study on environmental quality of a surgical block

K. Peippo, et al.,
Multivariate optimisation of design trade-offs for solar low energy buildings

Volume 29
Number 3
March 1999

E. Nannei, et al.,
Thermal transients in buildings: development and validation of a numerical model

T.I. Salsbury,
A practical algorithm for diagnosing control loop problems

C. Lombard, et al.,
Demand-Side Management through thermal efficiency in South African houses

V. Butala, et al.,
Energy consumption and potential energy savings in old school buildings

K.-E. Westergren, et al.,
Monitoring energy consumption in single-family houses

E. Palomo-Del Barrio, Roof components models simplification via statistical linearisation and model reduction techniques

H. Boyer, et al.,
Building ventilation: a pressure airflow model computer generation and elements of validation

G.F. Jones, et al.,
Steady-state heat transfer in an insulated, reinforced concrete wall: theory, numerical simulations, and experiments

Technical note

E.H. Mathews, et al.,
The development and testing of low-cost insulation for shacks

Subscription Information 1999

Volumes 20 and 30, each containing 3 issues, are scheduled for publication. Prices are available from the publishers upon request.

Subscriptions are accepted on a prepaid basis only. Issues are sent by SAL (Surface Air Lifted) mail wherever this service is available.

Airmail rates are available upon request.

AUTOMATION IN CONSTRUCTION

(ISSN 0926 - 5805)

Volume 8
Number 1
December 1998

D. Bullock, et al.,
Innovative application of directional boring procedures for replacing failed inductive loop detectors

A.N. Baldwin, et al.,
Planning building design by simulating information flow

B.K. Krishnamurthy, et al.,
AutoPave: towards an automated paving system for asphalt pavement compaction operations

A. Jain, et al.,
An interactive Web-based teaching tool for simplified 3D analysis of solar rhythms

B. Dolinsek, et al.,
Robotic assembly of rebar cages for beams and columns

F. Peyret,
A new facility for testing accurate positioning systems for road construction robotics
