W070 - Facilities Management and Maintenance

Call for Papers

International Symposium

Providing Facilities Solutions to Business Challenges - Moving Towards Integrated Resources Management

15th - 17th November 2000
Brisbane, Australia

Key Sponsors

- Queensland University of Technology
- National Committee on Rationalised Building Incorporated
- Queensland Government Department of Public Works

Objectives

- To bring together the body of knowledge and expertise on Facilities Management and Asset Maintenance
- To aim to forge closer links between the financial, sociological and operational aspects of Asset Management
- To serve as a platform for reviewing the multifaceted and multidisciplinary interests and expertise that combine to realise a quality working and living built environment

Topics

The Symposium will address all topics of relevance to the theme and objectives. Special attention will be focussed on the subject matter covered by the Task Groups in W070 which comprises:

- facilities management and strategic facilities planning
- strategic asset management, property management and maintenance systems
- condition assessment and prioritisation of maintenance actions
• building conservation and refurbishment
• technology of maintenance

There will be a special section devoted to developments of asset management and facilities management in the public sector.

Call for Papers

Papers are invited on the symposium topics. Contributions that relate to the subject covered by the W070 Task Groups will be especially welcome.

The full papers which will be presented will be subjected to review by the W070 Scientific Committee.

Those wishing to submit a paper should notify the Symposium Secretariat at the address below.
