New CIB Website and Newsletter

2005 witnessed the re-vamping of the CIB website and the launch of a new Electronic Newsletter, both using more modern design and offering information in a more accessible way.

New CIB Website

In order to better meet the needs of our members it was decided to re-design the CIB website during the course of 2005. The new website offers a much nicer layout, and a more user-friendly navigation.

A website being a "living project" more modules will be added and improvements implemented on a permanent basis

CIB Electronic Information Bulletin

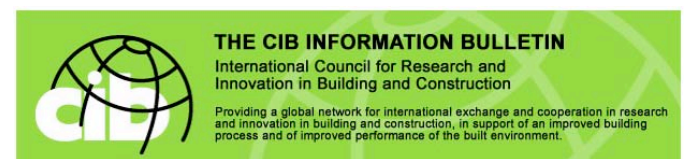

After the last edition of the paper version of the Information Bulletin in 2002, a number of concepts were tested until the Secretariat could produce the Electronic CIB Information Bulletin in its present form.

Instead of the 4 yearly issues produced in the past, the electronic Newsletter is presented on a monthly basis. The focus has been to forward timely useful information to members yet in an attractive manner.
